

XII ISAES 2015 Plenary and Parallel Sessions

XII ISAES 2015 Plenary and Parallel Sessions														
MONDAY 13 JULY			TUESDAY 14 JULY			WEDNESDAY 15 JULY			THURSDAY 16 JULY			FRIDAY 17 JULY		
9:00 Shailesh Nayak			Martin Siegert			Lonnie Thompson			Ian Dalziel			Terry Wilson		
Opportunities and Challenges in Solid Earth Research in India			Antarctic Subglacial Exploration: first results and future plans			Global Climate Change, ENSO and Black Swan Events: A Paleoclimate Perspective from the World's highest Mountains			Tracking Antarctic back in time through a succession of supercontinents			New insights on Interactions between the Solid Earth and the Cryosphere		
9:45 Jeronimo Lopez-Martinez			Ross Powell			Anil Kulkarni			Paul Upchurch			SWA Naqvi		
SCAR's perspective on Antarctic Earth Sciences			Modern and Ancient grounding zone systems - Mediators and Indicators of Ice sheet Dynamics			Himalayan Glaciers:- A Source of Water in North Indian Rivers-			From maps to maximum likelihood - Methodological issues in the analysis of late Mesozoic Gondwanan vertebrate biogeography-			Ocean Iron Fertilization: an update from LOHAFEX		
10:30 COFFEE BREAK														
11:00 1. Geochronology of Antarctic Orogens (1)	2. Interactions between cryosphere, atmosphere and oceans in coastal Antarctica (16)	3. Paleoenvironmental changes in Antarctica and Southern Ocean since the LGM (18)	7. The structure and evolution of the Antarctic continent in light of recent geophysical and geological investigations (10)	8. ANTPAS- Antarctic permafrost, soils and periglacial environments (9)	9. Antarctic meteorites and micrometeorites (25)	13. The Himalayana Crosphere-Global versus Regional climate forcing (14)	14. Crustal blocks adjacent to Antarctica- Sri Lanka, Mozambique and Antarctica(3)	15. Symposium highlighting the contributions of Ian W.D. Dalziel and David H. Elliot to Antarctic tectonics (4)	19.. Paleoclimate records from Antarctic drilling projects (15)	20. Break up of Gondwana and vertebrate evolution (20)	21.. Surficial processes and climate change in Antarctic terrestrial environment: changes and impact on permafrost, erosion and chemical weathering (8)	26. Evolution of Antarctic Topography and bathymetry: understanding links between landscapes, ice and paleoclimate (7)	27. Cryosphere-solid earth interaction and Antarctic geothermal heat flux, subglacial geology and ice dynamics (combined sessions 11 and 12)	28. General Antarctic Earth Science (26)
13:00 LUNCH BREAK														
14:00 POSTER SESSION														
15:00 15:30 4. Exploring unknown Antarctica (24)	5. Interactions between cryosphere atmosphere and oceans in coastal Antarctica (16)	6. Key drivers of Antarctic biodiversity through the Cenozoic: the influence of climate, oceanography and tectonics (21)	10. The structure and evolution of the Antarctic continent in light of recent geophysical and geological investigations (10)	11. The Rodinian orogeny in east Gondwana- implications for supercontinent evolution(5)	12. Past Antarctic ice sheet behaviour and response to external forcing (13)	16. The Himalayana Crosphere-Global versus Regional climate forcing (14)	17. Large Igneous Provinces in Gondwanaland (6)	18. Geodynamic evolution of Dronning Maud Land mountains (2)	22. Paleoclimate records from Antarctic drilling projects (15)	23. Southern Ocean paleoclimatology and Lake sediment records of past changes in sea level and climate during the Late Quaternary (17 & 19)	24. Surficial processes and climate change in Antarctic terrestrial environment: changes and impact on permafrost, erosion and chemical weathering (8)	31. Evolution of Antarctic Topography and bathymetry: understanding links between landscapes, ice and paleoclimate (7)	32. Southern Ocean paleoclimatology and Lake sediment records of past changes in sea level and climate during the Late Quaternary (17 & 19)	29. General Antarctic Earth Science. (26)
17:00 18:00 Conservation of Geoheritage in Antarctica: Special Plenary by Chris Carson														
30. New frontiers in remote sensing in Antarctic Earth Sciences: cross disciplinary advances(22)														

LEGENDS: HALL NAMES

Salon 3	Kullagar	Salon 1	Plenary Sessions Salon Ballroom
